### Market Technical Outlook

Nifty, opened lower in wake of weak global clue and momentum on the downside intensified as the day progressed which drag nifty to close deep in red. On the daily chart, we are observing a strong bear candle which has close well below the 20-days SMA (18036) & 50-days SMA (18263). This suggests weakness. In coming trading session if nifty trades below 17840 level then it may test 17750 – 17630 levels. On the upside, 18000 – 18120 levels may act as resistance for the day.

**At present, prices are trading well below the 20-days SMA (18036) and the 50-day SMA (18263). Hence, cautious approach at current level should be adopted.**
