Market Technical Outlook

Nifty opened higher but was unable to sustain the opening gains as selling emerge during the day which led nifty to close in red. We still maintain our stance that the upward gap area of 17328 to 17434 is likely to act as support for the prices. In coming trading session if nifty trades above 17718 levels then it may test 17760 - 17840 levels. On the downside, 17560- 17470levels may act as support for the day.

Broadly, looking at the position of short term moving averages and position of the momentum indicator viz. RSI. We are of the opinion that momentum on the upside is likely to continue. Hence, one should adopt positive approach at current level.
