Market Technical Outlook

Nifty opened lower in wake of weak global clue and traded in a narrow range with negative bias to close in red. On the daily chart, we are observing a narrow range body formation which suggests indecisiveness prevailing at current level. In coming trading session if Nifty for first hour trades below 17000 level then it may test 16900 – 16800 levels. On the upside 17150 – 17240 levels may act as resistance for the day. **At present, prices for three consecutive trading session have closed below the 200-days SMA (17212). Hence, one needs to adopt cautious approach at current level. However, stock specific activity is likely to continue.**
