Nifty, opened higher, traded with choppiness but finally managed to close in green. We continue to maintain our stance that on the daily chart we are observing series of narrow range body formation which suggests that markets are cautiously positive at current level. In coming trading session if Nifty for first hourtrades15870 level then it may test 15950 - 16150 levels. On the downside, 15760— 15680 levels may act as support for the day.

We still maintain our stance that stock specific activity is likely to continue in small and Mid-cap stocks.
