#### **Market Technical Outlook**

Nifty, opened higher traded with choppiness throughout day and finally close with flat note. On the daily chart, we are observing that prices not able to cross downward slopping trend line which indicates supply at higher level. In coming trading session if nifty trades below 16918 level then it may test 16870 - 16800 levels. On the upside, 17050 - 17150 level may act as resistance for the day.

Broadly, we are of the opinion that prices are trading in the range of 16800 on the downside and 17255 on the upside. Any decisive break on either side would dictate the direction of trend. Further, prices are trading below the rising 200-days SMA (17470). Hence, one needs to adopt cautious approach at current level.
