Market Technical Outlook

Nifty, opened lower but witness upside momentum in the latter half of the session to close in green. On the daily chart, we are observing that nifty made a new all-time high of (18614) and formed a positive candle. This suggests that momentum on the upside is likely to continue. Incoming trading session if nifty trades above 18614 level then it may test 18680– 18770 levels. On the downside, 18450–18340 levels may act as support for the day.

At present, nifty made a new all-time high of 18614 and we are of the opinion that now nifty is likely to test 19000 – 19500 in couple of weeks. Hence, one should adopt buy on decline strategy in this market.
