Market Technical Outlook

Nifty, opened higher traded in a narrow range with positive bias throughout the day to close in green. On the daily chart, we are observing a “Doji” candle which suggests indecisiveness prevailing at current level. In coming trading session if nifty trades above 14572 then it may test 14700 – 14750 levels. On the downside, 14400 – 14300 levels may act as support for the day.

Since, the prices are trading below 50-day SMA (14764), one needs to adopt cautious approach at current level. However, stock specific activity is likely to continue.

Foreign Institutional Investments (FII's) Activities
