### Market Technical Outlook

Nifty opened up with a gap and traded with positive bias throughout the day to close in green. On the daily chart, we are observing an upward gap area in the range of 16204 to 16221. Normally upward gaps do act as support for the prices. In coming trading session if Nifty trades above 16380 level then it may test 16480 – 16560 levels. On the downside, 16250 – 16150 levels may act as support for the day.

**We still continue to maintain our stance that the recent low of 15735 is the intermediate bottom and pull-back rally is in offing. Hence, one needs to adopt cautiously positive approach at current level.**
