### Market Technical Outlook

Nifty opened higher traded in a narrow range with positive bias throughout the day to close in green. On the daily chart we are observing a narrow range body formation which has closed above the 50-day-SMA (15679). This suggests that markets are cautiously positive at current level. In coming trading session if Nifty for first hour trades above 15817 then it may test 15880–15970 levels. On the downside, 15650–15580 levels may act as support for the day.

**We still continue to maintain our stance that stock specific activity is likely to continue in small and Mid-cap stocks.**
