Market Technical Outlook

Nifty opened up with a gap and momentum on the upside intensified as the day progressed which led indices to close in green. On the daily chart we are now witnessing an upward gap area in the range of 19916 to 19956. Normally, upward gap area act as support for the prices. In coming trading session if nifty trades above 20104 level then it may test 20222 - 20310 levels. On the downside, 20000–19900 levels may act as support for the prices.

Broadly, looking at the current price action it is evident that nifty may test prior all-time high of 20222 in couple of weeks. Hence, one should adopt positive approach at current level as stock specific activity is likely to continue.
