Market Technical Outlook

Nifty opened on a subdued note and traded in a narrow range with choppiness but finally managed to close in red. On the daily chart, we are observing two consecutive narrow range body formations which suggest indecisiveness prevailing at current level. We maintain our stance the upward gap area (17112 to 17161) is likely to act as support for the prices. In coming trading session if Nifty for first hour trades above 17260 level then it may test 17350 - 17400 levels. On the downside, 17130- 17070 levels may act as support for the day.

At present looking at the current price action it is evident that one needs to adopt cautiously positive approach at current level.
