Nifty opened higher but was unable to sustain the opening gains and selling pressure intensified as the day progressed which led the indices to close in red. On the daily chart for two consecutive trading session indices closed below the 50-day SMA which suggests that the undertone in the market has turned negative. On the downside Nifty is likely to test 11997 – 11905 – 11861 levels.

At present one needs to adopt cautious approach at current levels.
