Nifty opened on a subdued note but witness selling pressure during the day which led nifty to close deep in red. On the daily chart, we are observing that prices faced resistance at the supply zone of 21720 -21750 and has closed below the 20-days SMA (21621). In coming trading session if nifty trades above 21600 levels then it may test 21622 - 21710 levels. On the downside, 21420 – 21330 levels may act as support for the day.

Since prices are oscillating above and below 20- day SMA (21621), one needs to adopt cautiously positive approach at current level. However, as stock specific activity is likely to continue.
