Source: BSE

Nifty, opened up with a gap and momentum on the upside intensified as the day progressed which led the nifty to close in green. On the daily chart we are observing an upward gap area in the range of 14572 – 14617. Normally upward gaps do act as support for the prices. Further, prices have managed to close convincingly above the 50day SMA (14769) which suggests strength. In coming trading session if nifty trades above 14880 then it may test 14950 – 15100 levels. On the downside,14750 - 14600 levels may act as support for the day.

Since, the prices have closed above the 50-day SMA (14769), one can adopt cautiously positive approach at current level. However, stock specific activity is likely to continue.
