Market Technical Outlook

Nifty opened higher but was unable to sustain the opening gains and selling in the latter half of the session dragged nifty to close marginally in green. At present prices, tested the falling 20-days SMA (19432) by making a high of 19452 and has closed well below 20-days SMA&50-days SMA (19409). This is sign of weakness. Incoming trading session if nifty trades below 19320 level then it may test 19240– 19150 levels. However, bounce from current level to 19460– 19540 levels may act as resistance for the day.

Since, we are trading below the demand zone 19300 – 19500 & well below 50-days SMA (19387), one needs to adopt cautious approach at current level.
