

Mutual Fund Recommendation

Mutual funds are a great investment tool for investors looking to invest in Indian equity markets, especially for investors who are wary of investing directly into equities or debt market.

In this report, we have hand-picked mutual fund schemes for investment after a rigorous analysis based on various qualitative and quantitative parameters including scheme performance, risk-return analysis, consistency of performance, fund manager's profile and track record, portfolio churning and fund house's investment process.

Equity Portfolio Recommendation

The equity portfolio recommendation section of the report consists of a three mutual fund model portfolios designed for investors with different risk appetite, namely, aggressive, moderate and conservative.
