Platinum Industries Limited, incorporated in August 2016, specializes in the production of stabilizers, manufacturing PVC stabilizers, CPVC additives, and lubricants. Their products are utilized in various applications including PVC pipes, profiles, fittings, electrical wires, SPC floor tiles, Rigid PVC foam boards, and packaging materials. The company's manufacturing facility, spanning 21,000 sq. ft., is located in Palghar, Maharashtra. Company's business model is aimed at consistently expanding product portfolio by introducing new products to cater to multiple end-use applications.

Investment Rationale

Strategic Investment in Cutting-Edge R&D: The company operates an in-house R&D facility in Palghar, Maharashtra, spanning 3,351.82 sq. ft., equipped with modern instruments for product innovation. Company have collaborate with Dr. Horst Michael Schiller, an internationally renowned scientist with over three decades of experience in the PVC industry. He has extensive knowledge and experience in the field of PVC additives and has authored several books on PVC stabilizers. Technical collaboration with HMS Concept E.U. enhances research capabilities.

Diverse Product Portfolio : The company offers various PVC stabilizer products tailored to customer needs, with over 400 grades for diverse applications. It has three major product categories consist of PVC stabilizers, CPVC additives, and lubricants. Within the stabilizer category, Company offers both lead-based and lead-free options, such as calcium zinc stabilizer, calcium organic stabilizers, and other lead free add packs. CPVC additives are specialized for CPVC pipes, primarily used in plumbing and other industries and lubricants comprising mainly polyethylene waxes, ope wax, and lube packs.

Entry Barriers and Quality Assurance in the Specialty Chemical Industry: The speciality chemical industry faces high entry barriers due to R&D, technical expertise, and regulatory standards. Stringent quality and approval processes limit competition and require significant customer validation. The company upholds rigorous quality control procedures at all stages, including vendor prequalification and batch testing. An experienced analytical lab ensures compliance with specifications before product dispatch.

Strategic Expansion into Global Markets Enhancing Capabilities for Growth: The company plans to broaden manufacturing capabilities by establishing a facility in Egypt through its subsidiary, targeting PVC industries. The move aims to enhance global market reach and proximity to key manufacturing facilities. The positioning of mfg. unit near the Suez Canal will lead to optimization of freight and transportation charges and provides easier access.

Expansion of market Share : Platinum Industries Ltd is at 3rd position in India having 13% market share by sales in fiscal 2023. Company plans to set up new Palghar facility to modernize and expand capacity of non-lead based stabilizers which will help to maintain quality and reduce impurities. Company aims to utilize its sales and marketing network, diversified product portfolio and industry standing to establish relationships with new multinational, regional and local customers to expand customer base and market share.

Valuation & Outlook: The PVC market is poised for substantial growth, driven by the pipes and fittings segment, forecasted to achieve an 8-9% CAGR from 2022 to 2027. Construction industry expansions in the MENA region, backed by initiatives like Saudi Vision 2030, will fuel demand. Investments in various sectors will escalate PVC consumption and the need for PVC stabilizers. The global specialty chemicals industry is set to grow, emphasizing strong prospects for PVC-related applications. On post issue market cap, company trades 25x TTM EPS. The industry dynamics seem positive given the growth prospects of the building materials sector. We recommend to **SUBSCRIBE FOR LONG TERM.**
