Market Technical Outlook

The Nifty opened higher and traded with positive bias to close in green. On the daily chart, we are observing “Higher -high” formation & “Upward Gap area”. This suggests that the undertone in the market is positive. In coming trading sessions, if Nifty trades above 25250 level, then it may test 25300 – 25350 levels. On the downside, 25150 – 25100 levels may act as support for the day.

Broadly, looking at the current price action it is evident that the 50-days SMA (24406) remains crucial support for the prices. Hence, one needs to adopt a cautiously positive approach at the current level, as stock-specific activity is likely to continue.
