Market Technical Outlook

Nifty opened up with a gap and traded with positive bias throughout the day to close in green. On the daily chart, we are observing an upward gap area of 22653 – 23062. Normally upward gap area does act as support for the day. In coming trading session if nifty trades above 23280 then it may test 23380 - 23470 levels. On the downside, 22150 - 22030 levels may act as support for the day.

Broadly, looking at the current price action it is evident that there is high probability that upside momentum is likely to continue. Hence, one needs trade with positive bias as stock specific activity is likely to continue.
