Market Technical Outlook

Nifty opened up with a gap and traded in a narrow range throughout the day with positive bias to close in green. Normally upward gap area (22537 to 22550) does act as a support for the prices. In coming trading session, if nifty trades above 22697 levels then it may test 22780 - 22850 level. On the downside, 22550 – 22460 levels may act support for the day.

Broadly, looking at the breath of the market we are of the opinion that momentum on the upside is likely to continue. Hence, one needs to adopt positive approach at current level.
