Market Technical Outlook

Nifty opened lower and momentum on the downside intensified as the day progressed which led nifty to close deep in red. On the daily chart, we are observing that prices have close convincingly below the falling 50 - days SMA (22300). This suggests that momentum on the downside may continue. In coming trading session if nifty trades below 21932 level then it may test 21850 – 21750 levels. On the upside, 22180 – 22290 levels may act as resistance for the day.

Since, prices have closed below falling 50 days SMA (22300) one needs to adopt cautious approach at current level.
