Market Technical Outlook

The Nifty opened on a subdued note but witness selling pressure in the latter half of the session, which dragged indices to close in red. On the daily chart, we are observing that prices have close marginally below the rising 20-days SMA (24924). In coming trading sessions, if Nifty trades below 24880 level then it may test 24820 – 24760 levels. On the upside, 25020 – 25150 levels may act as resistance for the day.

Broadly, looking at the current price action which has close below the rising 20-days SMA (24924) suggests mild weakness. Hence, one needs to adopt a cautiously positive approach at the current level, as stock-specific activity is likely to continue.
