Market Technical Outlook

Nifty opened on a subdued note but witness selling pressure during the day to close in red. On the daily chart, we are observing that prices have closed below the falling 20-days SMA (21684) which is sign of weakness. In coming trading session if nifty trades below 21570 level then it may test 21500 - 21400 levels. On the upside, 21700 – 21800 levels may act as resistance for the day.

Since, prices have breached falling 20-days SMA (21684), one needs to adopt cautious approach at current level. However, stock specific activity is likely to continue.
