Market Technical Outlook

Nifty opened higher traded with extreme volatility during the day but finally witness upside momentum in the final hour of trade which led nifty to close in green. On the daily chart, we are observing that prices have reclaimed the 50-days SMA (22310) and has close well above it. In coming trading session if nifty trades above 22440 then it may test 22510 – 22620 levels. On the downside, 22280 – 22190 levels may act as support for the day.

Since, prices have reclaimed the 50 days SMA (22310) one needs to adopt positive approach at current level.
