Market Technical Outlook

Nifty opened lower, and momentum on the downside intensified as the day progressed which led nifty to close deep in red. On the daily chart, we are observing that prices have closed well below the 50-days SMA (21981) which is a sign of weakness. In coming trading session, trades below 21800 level then it may test 21700 – 21600 levels. On the upside, 21900 – 22000 levels may act as resistance for the day.

Since, has given close below the 50-day SMA (21981),one needs to adopt cautious approach at current level.
