**Market Technical Outlook** 

Nifty opened higher and momentum on the upside intensified as the day progressed which led nifty to close in green. On the daily chart, we are observing that prices made a new lifetime high of 22993 and formed bull candle. this suggests that momentum on the upside is likely to continue. In coming trading session if nifty trades above 22993 then it may test 23080 – 23190 levels. On the downside, 22880 – 22790 levels may act as support for the day.

Broadly, looking at the current price action it is evident that momentum on the upside is likely to continue. Hence, one need to adopt positive approach at current level.
